

Flagstaff Hill School

Internet Users Agreement

Flagstaff Hill School's Internet account exists to provide students with access to curriculum related material and excellent online learning opportunities.

Flagstaff Hill School expects students will use the Internet in a responsible manner.

While teachers will always exercise their duty of care during Information Technology lessons at the school, and although many inappropriate sites have been blocked by the system, protection against exposure to harmful information (for example, illegal, dangerous or offensive material) must depend finally upon responsible use by students.

At the start of every year, and prior to using the Internet, students will discuss information with teachers regarding responsible use of the Internet.
